Common Cheat Software Questions

▼ Do you have free hacks?

No, Wallhax is a paid-only service.

Wallhax offers subscriptions to access our cheats, so we do not offer any free hacks or cheats. Our sales enables our team to devote their time to developing our cheats and all aspects of the software, as well as dedicating time to providing support if you ever run into problems.

A 3-day VIP trial is available with some purchase methods so that you can try our cheats with minimal commitment.

▶ Why should I purchase cheats from you?

▶ Does your software contain viruses or spyware?

▶ Can I use more than one PC with your software?

▶ Can I be banned from a game for using your software?
